

011 Element Assignment 1500 words (2022 MOD002402 TRI1 F01CHE)

Start Assignment

Due 9 Dec by 14:00 **Points** 100 **Submitting** a file upload

File types doc, docx, pdf, ppt, pptx, ppsx, pps, xls, xlsx, odt, wpd, ps, eps, htm, html, hwp, rtf, and txt

Available until 9 Dec at 14:00

By submitting, I understand that the piece of work submitted will be considered as the final and complete version of my assignment of which I am otherwise the sole author. I understand both the meaning and consequences of plagiarism and that my work has been appropriately attributed unless otherwise stated. I have not knowingly allowed another to copy my work. Please read our [Academic Honesty Policy](https://library.aru.ac.uk/academic/files/Academic%20Honesty%20Policy.pdf) (<https://library.aru.ac.uk/academic/files/Academic%20Honesty%20Policy.pdf>) here.

Assessment Format:	CW - Report
Mode of Submission:	<p>Canvas: Assignment with Submission</p> <p>Where your assessment requires you to submit work to Canvas or an External Tool, it is not recommended to submit via the Canvas App due to some limitations in the App functionality. We would suggest instead that submission is made on a browser from a computer or mobile device.</p> <p>It is not recommended that you submit your assignment or take a quiz on a cellular or satellite connection. This is because loss of internet connection during assessment is most commonly associated with these services, although we understand that sometimes this is the only option. Wherever possible, we would recommend that assessments are submitted or undertaken on WiFi or hardwired (ethernet) connections.</p> <p>Large files are best submitted on a hardwired internet connection (i.e., not WiFi).</p>
Weighting:	This assessment is worth 50% of the Module mark
Assessment Level:	7 Generic Assessment Criteria and Marking Standards

Element Learning Outcomes:	<i>The element learning outcomes for this assessment are: 1-4</i>
Marking Approach:	Fine-graded
Feedback Release Date:	17/01/2023

Assessment Task Detail and Instructions:

Report title: Proposal for Successful Project

It is essential that project managers develop their unique strategy and approach to the management of projects. Without a clear approach at the outset of a project, there is little chance that the project manager will function or operate effectively, it will become a series of loosely connected activities that is reactive rather than pro-active. Projects that have a clear approach and strategy have an integrated and focused organisation and are significantly more successful. One of the essential strategies that the PM must have is managing project information. Project management information systems (PMIS) support project managers in planning, organising, controlling, and reporting projects while facilitating effective decision-making and problem-solving. PMIS provides managers with essential information on the performance parameters such as cost, time, quality and safety of a project and on the interrelationship of these parameters. Therefore, it is essential to consider and develop how you will manage project information as part of your approach to management.

Scenario

Following a successful presentation to the Board of Directors, you are one of a number of potential project managers nominated to lead a project for a new client. You have been asked to submit a proposal. To make their selection, the client needs to identify the project manager whose style and approach to project management will be the most successful. The final appointment will be discussed and confirmed at a meeting of the Board of Directors. To make their decision, the Board of Directors has asked you to submit a proposal that explains your approach to managing project information and communication.

Task

This is an individual report.

Write a proposal to the Board of Directors that sets out your strategy for Project management information system; clearly explaining the culture and management

approach that you use to ensure the success of your projects.

Marking Criteria

- | | |
|--|------|
| 1. Comprehensiveness and completeness of your proposal for the project Management Information System | 40%. |
| 2. Effectiveness of the project culture for the proposed PMIS | 30%. |
| 3. Feasibility of your management approach for the proposed PMIS | 20%. |
| 4. Quality of the proposal and usability to the client | 10%. |

Note: The client is familiar with the functions and activities performed by project managers in the management of projects so do not merely describe these.

Submission

- Submission deadline: As advised in EVision
- Submissions must be typed in clear font style, 12pt double-spaced and appropriate cover sheet that includes: the report's title; Module code and name; Your Student ID number (no names); Trimester; date of submission (mm/YYYY) and word count.
- Submissions should be in the order of 1500 words.
- Use your SID to name the file to be submitted. Recommended file formats are word documents or pdf.
- It is not normal practice to include references in a report to a client, so for this assignment, do not include in-text citations. Instead, include a bibliography as an Appendix to the report (this does not form part of the word count).

Feedback Arrangements:

Students are encouraged to plan and seek formative feedback from the module tutors in advance. Tutors cannot guarantee that they will be able to review individual drafts at any moment before submission, therefore, students should take advantage of the opportunities for formative feedback to discuss the structure of the report.

Re-Assessment Arrangements:

Reassessment will be advised through the Evision. The assessment brief will be uploaded to Canvas.
